

## ONYX B2 Fitness Band User Guide

JAB Companies, Inc.  
www.zfitband.com

### Introduction

#### About ONYX B2 Smartband

ONYX B2 is a fitness & alerts management system to track your daily activities for a healthier and fitter lifestyle. It is connected to your smartphone by Bluetooth synchronization for realtime data. The system manages Steps, Sleep, Calories, Distance, reminders, phone calls, alerts, messages & alarms.

The ZFIT app is available on Apple iTunes and Google Play store (search for ZFIT). Also, can be downloaded from the website (www.zfitband.com) or scan QR code.

### Charging Dock

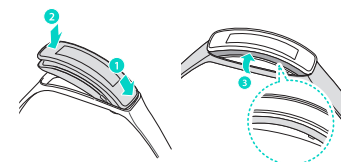

### Strap

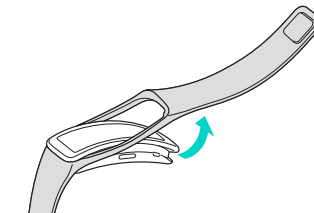

### Setup

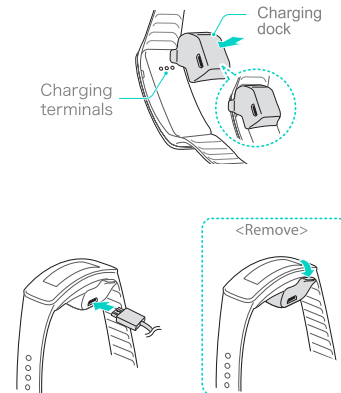

#### Installing the band

#### Removing the band

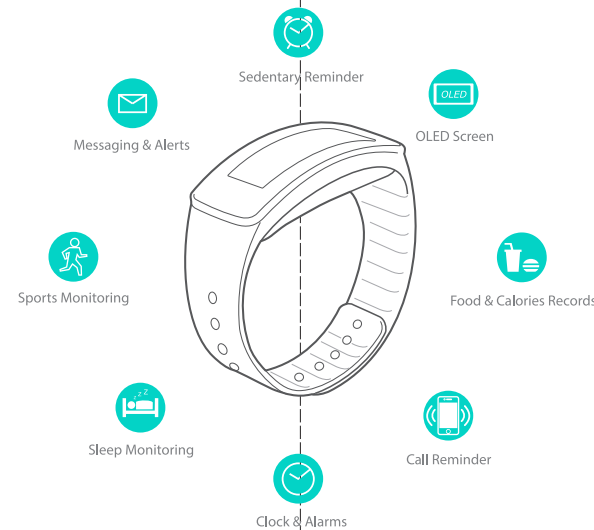

### Charging ONYX B2

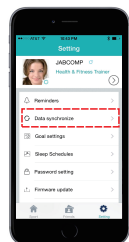

B2 must be fully charged before activation  
The battery life will depend on the mode of operations (Est. 7 days)  
The life cycle of the battery is estimated at 3 years

### ZFIT App Functions

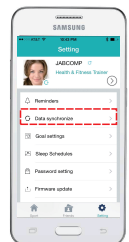

### Synchronizing or Linking B2

- Download and install the ZFIT app
- Register/Sign In or login to the ZFIT app or select third party login
- Turn on the Bluetooth function in the smartphone settings
- Scan or discover the B2 unit is displayed in the list. If you're not seeing B2, try refreshing your smartphone Bluetooth search. Be sure the smartphone and B2 are within a foot of each other while pairing.
- Select Setting on ZFIT app
- Select Data Synchronization.
- Select B2.
- Your devices and B2 should now be connected. The first time you connect ZFIT App & B2 it will vibrate a few times to acknowledge Bluetooth connectivity and B2 linking.

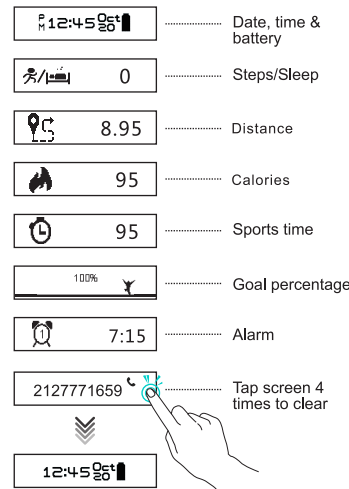

App version: iOS 1.7.3

Android 1.4.3

If cannot connect/Sync, Forget This Device (iOS) or Unpair (Android) and search/discover again. Still cannot sync, delete App and reinstall.  
If your B2 requires a firmware updated, you should see "NEW" in red on the menu in Setting. Follow the onscreen instructions.

### ONYX B2 Smartband Displays

Data is stored for 7 days in the ONYX B2 Smartband. If B2 Smartband is not sync with ZFIT app within 7 days, there will be loss of data or records.

### FAQ

#### Q: How to turn ON my smartband?

A: Once the smartband is charged it is always ON, tap twice to awake

#### Q: How do I adjust the time?

A: There is NO manual adjustment of the time, it is sync with your mobile device

#### Q: Why the screen is not so sensitive to my touch?

A: The smartband has vibration sensors, by tapping anywhere on the screen it is awakening from the sleep mode and multiple taps will advance the screens. It is designed to be sensitive but not too sensitive as to generate errors and malfunctions.

#### Q: Why I do not receive reminders after syncing?

A: There might be a loss of the Bluetooth connectivity; on the mobile device Bluetooth settings "Forgot this device" (iOS) or "Unpair" this device (Android). Reconnect Bluetooth with smartband again.

A: Turn Bluetooth OFF & ON and reconnect smartband

A: Verify the settings on the ZFIT app reminders

A: Verify that notification is set on the mobile device for the messaging app

A: Sync data again

A: Verify that the smart band is not more than one foot away from mobile device

A: Still cannot, logout of App and Login again and sync the smartband

A: If still cannot resolve, unlink device and sync again. Still issue

uninstall app and reinstall, follow process for syncing.

#### Q: Cannot connect smartband

A: Invalid serial number (send 12 digit alpha numeric codes to support@zfitband.com or call 1-612-338-0794 for validation

A: Battery is below 5%

A: Bluetooth is OFF or cannot discover smartband in list

A: Smartband is linked to another mobile device

A: The smartband and mobile device are too far apart

#### Q: Why I fail to install the ZFIT APP?

A: Since ONYX B2 wrist band uses Bluetooth-Low-Energy technology, so your smartphone operation system must meet iOS 7.1 or higher and Android 4.3 or higher.

#### Q: I can't receive the verification code when signing up by entering my phone number.

A: Try registering by entering your E-mail address.

### Safety Information

- To prevent injury, fire, or explosion, read and adhere to all safety information before using the device. Use manufacturer-approved batteries, chargers, accessories, and supplies.
- Do not expose the device to physical impact.
- Prevent the multipurpose jack and battery terminals from contacting conductive elements, such as metal or liquids.
